

Ceramic Technology for Clean Energy

ENrG Inc. Quality Policy
Revision 1
Author/Owner: John A. Olenick, President & CEO

March 14, 2016

ENrG Inc. markets, produces, sells and distributes thin, ultra flexible ceramic substrates typically sold to OEMs and designed into harsh environment applications throughout the world. ENrG accomplishes this by expertly applying world-class quality standards in a collaborative work environment, continually improving our personnel, products, services, and processes by empowering our employees. The products we sell, the services we provide and our operations fulfill the laws and regulations that relate to our business.

A handwritten signature in black ink, appearing to read 'John A. Olenick', is centered on the page.
